

## Description:

The 3P Filter Collector filters and collects rainwater for water butts and smaller rain tanks.

The filter can act as overflow outlet for the tank once filled.

With 2 positions open or closed for summer and winter operation.

Integrated filter sieve: stainless steel

Mesh size: 0,7 x 1,7 mm

Easy installation and and maintenance

For roof areas up to 70 m<sup>2</sup>

For installation in downpipes from Ø 68 to 100 mm, special reductions included

High efficiency, low maintenance

## Technical Data:

Installation in downpipes from Ø 68 to 100 mm

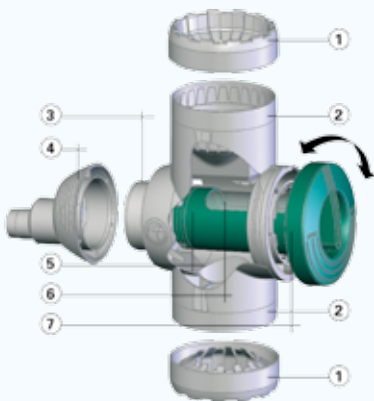

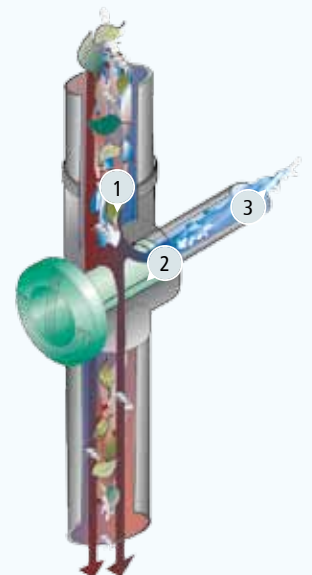

Housing material: Polyethylene  
Material filter sieve: stainless steel 1.403

Mesh size: 0,7 x 1,7 mm

Weight: 0,86 kg

## How it works:

1. Rainwater is led from the filter entrance to the sieve cartridge
2. Dirt is rinsed to the sides, and to sewer
3. Cleaned water is led through the cartridge outlet channel to storage
4. Settings for winter and summer conditions, twist 180° to remove cartridge filter, no need to demount filter body, the filter cartridge can be cleaned easily with detergent and a brush.

## Technical Description:

1. Reduction: Ø 68 - 100 mm
2. Connector for downpipe: Ø 100 mm
3. Outlet connection: Ø 75 mm
4. Adapter for connection: Ø 50 mm / 32 mm
5. Guiding plates
6. Filter mesh: Stainless steel
7. Settings for winter and summer conditions

**Example 1:**

3P Filter Collector brown with adapter, here connected directly with the 3P Rainwater Tank with a capacity of 300 l

**Example 2:**

3P Filter Collector grey without adapter, here connected directly with the 3P Rainwater Tank with a capacity of 300 l

**Example 3:**

3P Filter Collector grey connected with a Feature Water Tank

**Text for invitation of tenders:**

Pos.	Quantity	Article	Price in €
1.1	_____	3P Filter Collector Rainwater Filter for installation in downpipe from Ø 68 to 100 mm Outlet DN 70 or with adapter DN 50 and Ø 32 mm Filter sieve: made of stainless steel, Mesh size: 0,7 x 1,7 mm  For filling small underground and above ground rain tanks  Dirt is led to the sewer, cleaned water is led through the cartridge's outlet channel to storage	_____

**Accessory 1:**

3P Connection Set Ø 32 mm  
 Art.-Nr. 9000128  
 1" x Ø 32 mm, 25 cm hose with tank wall seal connector, including hand drill

**Accessory 2:**

3P Hole cutter set for tank wall seal connector  
 Art.-Nr. 9000276  
 Hole cutter for making connections in rain tanks made of plastics, including 2 sealings Ø 50 and Ø 32 mm for the connection of downpipe filters

**Observations:**

Packing 3P Filter Collector:  
 4 colored printing box in 8 languages

**Packing unit 3P Filter Collector:**

Covering box 790 x 575 x 700 mm: 29 pieces  
 Pallet: 216 pieces

**EAN:**
